| best season: | JUN, JUL, AUG, SEP, OCT |
|--------------|-------------------------|

Altitude profile

## Description

Running along the slightly steeper Bärenkopf slope the optional jumps and features lead to a stone slab section before a wooden footbridge shoots you onto a 130 m Uphill Northshore with railings. Here you pass over the rock face below before rejoining the Sonnenrast Trail once more.

Tip: The MTB Family Area Streiteck is located at the bottom of the Sonnenrast lift, with a 100-metre-long conveyor belt and several kids' trails. This is the ideal meeting point for MTB families and active riders: for practising, warming up, swapping bikes, bike camps and chilling out. Please note: Rental bikes must be hired in the valley.
